**September 2021**  
(this list supersedes all previous lists)

The following rules have been certified as conforming to the American Softwood Lumber Standard, PS20, by the Board of Review of the American Lumber Standard Committee:

1. **Standard Grading Rules for Northeastern Lumber**; published by the Northeastern Lumber Manufacturers Association (NeLMA), 272 Tuttle Road, P.O. Box 87A, Cumberland Center, ME 04021; phone 207.829.6901; fax 207.829.4293
2. **Standard Specifications for Grades of California Redwood Lumber**; published by the Redwood Inspection Service (RIS), 1500 SW First Avenue, Suite 870, Portland OR 97204-2122; phone 503.224.3930; fax 503.224.3934
3. **Standard Grading Rules for Southern Pine Lumber**; published by the Southern Pine Inspection Bureau (SPIB), 4555 Spanish Trail, Pensacola, FL 32504; phone 850.434.2611; fax 850.433.5594
4. **Standard Grading Rules for West Coast Lumber**; published by the Pacific Lumber Inspection Bureau (PLIB/WCLIB), 1010 South 336<sup>th</sup> Street, Suite 210, Federal Way, WA 98003; phone 253.835.3344; fax 253.835.3371
5. **Western Lumber Grading Rules**; published by the Western Wood Products Association (WWPA), 1500 SW First Avenue, Suite 870, Portland, OR 97204-2122; phone 503.224.3930; fax 503.224.3934
6. **Standard Grading Rules for Canadian Lumber**; published by the National Lumber Grades Authority (NLGA), 303 – 409 Granville Street, Vancouver, BC V6C 1T2; phone 604.673.9100; fax 604.673.9141

### AGENCY NAMES & ADDRESSES

#### Northeastern Lumber Manufacturers Association (NeLMA)

272 Tuttle Road, P.O. Box 87A  
Cumberland Center, ME 04021

207.829.6901  
fax: 207.829.4293  
e-mail: [info@nelma.org](mailto:info@nelma.org)

1. NeLMA is a rules writing agency.
2. Approval of rules they publish and as an inspection agency including mill supervisory services under:
  - a. NeLMA rules
  - b. NGR, Posts and Timbers, and Beams and Stringers portions of WCLIB rules
  - c. NGR, Selects and Common Boards, 4/4 Shop, Heavy Shop, Posts and Timbers, and Beams and Stringers under the WWPA rules
  - d. NGR portion of the SPIB rules
  - e. NGR portion of the NLGA rules
3. Approved to supervise glued and machine graded lumber.
4. Approved to provide heat treatment audit services under all rules.

**Pacific Lumber Inspection Bureau (PLIB)**

1010 South 336<sup>th</sup> Street  
Suite 210  
Federal Way, WA 98003

253.835.3344  
fax: 253.835.3371  
e-mail: info@plib.org

1. PLIB is a rules writing agency
2. Approval as an inspection agency including mill supervisory service under:
  - a. WWPA rules
  - b. RIS rules
  - c. NLGA rules
  - d. NGR, Scaffold Plank, Radius Edge Decking, Finish and Boards portions of the SPIB rules
3. Approved to supervise glued and machine graded lumber.
4. Approved to provide heat treatment audit services under all rules.

**Redwood Inspection Service (RIS)**

1500 SW First Avenue, Suite 870  
Portland, OR 97201-5815

503.224.3930  
fax: 503.224.3934  
e-mail: info@wwpa.org

1. RIS is a rules writing agency.
2. Approval of rules they publish and as an inspection agency including mill supervisory service under:
  - a. RIS rules
  - b. WCLIB rules
  - c. WWPA rules
3. Approval to supervise machine graded lumber.
4. Approved to provide heat treatment audit services under all rules.

**Renewable Resource Associates, Inc. (RRA)**

860 Johnson Ferry Road  
Suite 140-194  
Atlanta, GA 30342

678.528.3734 or 770.330.9416  
fax: 678.528.8082  
e-mail: lon@rrainc.net

1. Approval as an inspection agency including mill supervisory service under:
  - a. SPIB rules
  - b. NGR, Posts and Timbers, and Beams and Stringers portions of the NLGA rules
  - c. NGR, Selects and Finish, Boards, Posts and Timbers, and Beams and Stringers portions of the WWPA rules
  - d. NGR, Posts and Timbers, and Beams and Stringers portions of the WCLIB rules
  - e. NGR, Selects and Finish, Boards, Mouldings, Posts and Timbers, and Beams and Stringers portions of the NeLMA rules
2. Approved to supervise glued and machine graded lumber.
3. Approved to provide heat treatment audit services under all rules.

## INTERPRETING GRADE STAMPS

With few exceptions (see note), all approved grade stamps include the following five elements:

### Visually Graded Lumber<sup>1</sup>:

(a) <b>TRADEMARK®</b>	(c) <b>Grade Designation</b>
(b) <b>Mill Identification</b>	(d)      (e) <b>Species      Seasoning</b>

- a. *Trademark* – indicates identity of agency quality supervision
- b. *Mill Identification* – product manufacturer name, brand or assigned mill number
- c. *Grade Designation* – grade name (number or abbreviation)
- d. *Species Identification* – name or abbreviation of individual species or species combination
- e. *Condition of Seasoning*<sup>a</sup> – moisture content classification at time of surfacing
  1. *S-Dry* – 19% maximum moisture content
  2. *MC15* – 15% maximum moisture content
  3. *KD* – kiln dried to moisture content indicated in grading rules
  4. *S-Grn* – over 19% moisture content (unseasoned)

<sup>a</sup> – *HT* – designation for Heat Treated - while not a seasoning designation, the abbreviation HT may be found in conjunction with the above seasoning abbreviations (see notes below). The HT definition can be found in the grading rules.

### Machine Graded Lumber<sup>1</sup>:

Grade stamps on machine graded lumber include the five elements listed above for visually graded lumber. Grade designations for the two types of machine grade lumber, machine stress rated (MSR) lumber and machine evaluated lumber (MEL), are distinctive from those used for visually graded lumber grades.

#### Machine Stress Rated Lumber (MSR) Stamp:

(b) <b>Mill Identification</b>	(d) <b>Species</b>	(e) <b>Seasoning</b>
(a) <b>TRADEMARK®</b>	(c) <b>##### Fb - #.#E</b>	
<b>Machine Rated</b>		

- MSR grade designations are composed of the assigned extreme fiber in bending (Fb or f) in psi and the assigned modulus of elasticity (E) in millions of pounds per square inch. Examples include 1650f-1.5E; 2100f-1.8E; and 2400f-2.0E.
- The phrase "Machine Rated" or "MSR" is also required on machine stress rated lumber stamps.

#### Machine Evaluated Lumber (MEL) Stamp:

(a) <b>TRADEMARK®</b>	(b) <b>Mill Identification</b>	
(d) <b>Species</b>	(e) <b>Seasoning</b>	
(c) <b>M – xx</b>		
##### Fb	#.# E	##### Ft

- MEL grade designations use the format, M-xx; where xx indicates a one or two digit number. Examples include M-12; M-15; and M-19.
- In addition, the assigned extreme fiber in bending (Fb or f) in psi, the assigned modulus of elasticity (E) in millions of pounds per square inch, and the assigned tension parallel to grain (Ft) in psi are required elements on machine evaluated lumber stamps.

### Glued Lumber<sup>1</sup>:

(a) <b>TRADEMARK®</b>	(b) <b>Mill Identification</b>
(d) <b>Species</b>	(e) <b>Seasoning</b>
(c) <b>Grade Identification</b> <b>(Type Glue/Appropriate Use)</b>	

Grade stamps on glued lumber include all the information indicated for visually graded lumber. In addition, the grade stamp includes a designation or abbreviation indicating the type of glue joint and appropriate use. Examples include "Stud Use Only", "Vertical Use Only", "Certified End Joint", "Certified Exterior Joints", "Heat Resistant Adhesive", and "Non-heat Resistant Adhesive".

1. Grade Stamp Layout – The placement of the required elements within a grade stamp may vary, depending on the preferences of the specific supervising agency. The sample grade stamp facsimiles that accompany the agency listing herein provide a good example of the typical placement of elements preferred by that particular agency. Contact the agency, whose trademark appears on the lumber, for specific information related to the agency's grade stamping policies.
2. When a combination species/species group/country nomenclature is shown in a grade stamp, the user of the lumber would select the weakest species/species group/country for the combination shown on the grade stamp as the appropriate value for the specific allowable property.

Note: Grade stamps for timbers are not required to include the condition of seasoning.

An approved grade stamp may include only a) trademark, b) mill identification, c) HT designation.

Grade stamps are permitted to include information that is not required, so long as the additional information is not confusing, misleading or deceptive. Contact the agency, whose trademark appears on the lumber, for specific information related to the agency's grade stamping policy.
